Subject Index

- Abstracts**
 Abstracts 1992;1:242, 303
- Accident prevention**
 safe driving (Drexler) 1992;1:223 (Freelance article)
- Adolescence**
 improvement in coronary risk profiles of obese adolescent males following short-term moderate caloric restriction and frequent exercise (Nichols et al) 1992;1:287 (Original research)
- Aerobic exercise.** *See* Exercise
- Afterload**
 effect of increased afterload on left ventricular filling properties in healthy elderly and young subjects (Sagiv et al) 1992;1:48 (Original research)
- Aged**
 effect of increased afterload on left ventricular filling properties in healthy elderly and young subjects (Sagiv et al) 1992;1:48 (Original research)
 mitral valve prolapse in the seventh to ninth decades of life (Goldhammer et al) 1992;1:343 (Original research)
 nutrition and health throughout the life cycle (Stare and McWilliams) 1992;1:16 (State-of-the-art review)
- Amputation**
 kinetic and energetic analysis of unilateral above-knee amputee gait (DeVita) 1992;1:164 (Case report)
- Anoxemia**
 when should oxygen be prescribed in patients with chronic obstructive pulmonary disease? (Tarpy and Celli) 1992;1:331 (State-of-the-art review)
- Anxiety**
 relationships among exercise training, aerobic capacity, and psychological well-being in the general population (Brown and Wang) 1992;1:125 (State-of-the-art review)
- Aspartate aminotransferase**
 creatine kinase, aspartate aminotransferase, and perceived soreness following exercise-induced muscle injury (Schneider et al) 1992;1:281 (Original research)
- Athletics.** *See* Sports
- Automobile driving**
 safe driving (Drexler) 1992;1:223 (Freelance article)
- Bibliography**
 biomechanics of the lower extremity during running (Hamill et al) 1992;1:245 (Annotated bibliography)
- Biomechanics**
 biomechanics of the lower extremity during running (Hamill et al) 1992;1:245 (Annotated bibliography)
- Body temperature regulation**
 temperature regulation in women (Kolka) 1992;1:201 (State-of-the-art review)
- Bone**
 adaptive responses of bone to physical activity (Conroy et al) 1992;1:64 (State-of-the-art review)
- Book reviews**
Advanced Fitness Assessment and Exercise Prescription (2nd edition), by Heyward (Ward) 1992;1:58

Catastrophic Injuries in Sports: Avoidance Strategies (2nd edition), by Adams et al (Cantu) 1992;1:187
Compulsive Exercise and the Eating Disorders, by Yates (Baker) 1992;1:121
Eating on the Run, by Tribble (Botelho) 1992;1:307
Exercise and Children's Health, by Rowland (Ebbeling) 1992;1:121
The LEARN Program for Weight Control, by Brownell (Morris) 1992;1:306
New Dimensions in Aerobic Fitness: Current Issues in Exercise Science (Monograph 1), by Sharkey (Zuti) 1992;1:253
Perspectives in Exercise Science and Sports Medicine, Volume 4: Ergogenics—Enhancement of Performance in Exercise and Sport, by Lamb and Williams (Pate) 1992;1:357
Rehabilitation of the Coronary Patient, by Wenger and Hellerstein (Durstine and Davis) 1992;1:358
Sport First Aid, by Flegel (Micheli) 1992;1:187
Women, Sport, and Performance (2nd edition), by Wells (Alessio) 1992;1:253
- Bureaucracy.** *See* Government
- Caloric intake**
improvement in coronary risk profiles of obese adolescent males following short-term moderate caloric restriction and frequent exercise (Nichols et al) 1992;1:287 (Original research)
- Carbohydrates**
adult athlete's guide to nutritional fitness (Morris and Stare) 1992;1:310 (State-of-the-art review)
- Cardiac rehabilitation.** *See* Rehabilitation
- Cardiovascular diseases**
cardiorespiratory responses of cardiac patients to incremental stairstepping and treadmill exercise (Quinn et al) 1992;1:217 (Original research)
coronary heart disease in women: medical science coming of age (Becker and Corrao) 1992;1:191 (State-of-the-art review)
exercise, nutrition, and the prevention of cardiovascular disease: a pediatric perspective (Rowland) 1992;1:34 (State-of-the-art review)
exercise and the primary prevention of coronary heart disease (McBride et al) 1992;1:5 (State-of-the-art review)
- Cardiovascular system**
cardiorespiratory responses of cardiac patients to incremental stairstepping and treadmill exercise (Quinn et al) 1992;1:217 (Original research)
prediction of cardiorespiratory fitness using physical activity questionnaire data (Ainsworth et al) 1992;1:75 (Original research)
- Child**
assessment of aerobic power/endurance in children (Ebbeling and Ward) 1992;1:230 (Clinic from University of Massachusetts)
cardiac rehabilitation for children with heart disease (Galio and Tomassoni) 1992;1:272 (State-of-the-art review)
- childhood health and fitness: separating fact from fiction (Rippe and Ward) 1992;1:61 (Editorial)
childhood health and fitness in the United States: current status and future challenges, part I (Rippe et al) 1992;1:97 (Roundtable discussion)
childhood health and fitness in the United States: current status and future challenges, part II (Rippe et al) 1992;1:171 (Roundtable discussion)
exercise, nutrition, and the prevention of cardiovascular disease: a pediatric perspective (Rowland) 1992;1:34 (State-of-the-art review)
lowering childhood risk factors: an investment in the future (Strong) 1992;1:301 (Editorial)
nutrition and health throughout the life cycle (Stare and McWilliams) 1992;1:16 (State-of-the-art review)
- Cholesterol**
relation of high-density lipoprotein cholesterol to physical activity levels in men and women (Hartung et al) 1992;1:293 (Original research)
- Chronic obstructive pulmonary disease.** *See* Lung diseases, obstructive
- Coronary disease**
coronary heart disease in women: medical science coming of age (Becker and Corrao) 1992;1:191 (State-of-the-art review)
effect of increased afterload on left ventricular filling properties in healthy elderly and young subjects (Sagiv et al) 1992;1:48 (Original research)
exercise, nutrition, and the prevention of cardiovascular disease: a pediatric perspective (Rowland) 1992;1:34 (State-of-the-art review)
exercise and the primary prevention of coronary heart disease (McBride et al) 1992;1:5 (State-of-the-art review)
health benefits of dietary fiber (Geil and Anderson) 1992;1:257 (State-of-the-art review)
health promotion for diseases of industrialized nations (Elrick) 1992;1:143 (Original research)
improvement in coronary risk profiles of obese adolescent males following short-term moderate caloric restriction and frequent exercise (Nichols et al) 1992;1:287 (Original research)
lowering childhood risk factors: an investment in the future (Strong) 1992;1:301 (Editorial)
medical clearance and exercise prescription for asymptomatic adults (Bryan and Ward) 1992;1:111 (Clinic from University of Massachusetts)
physical activity and health: a lifestyle approach (Sagiv et al) 1992;1:54 (Editorial)
relationship of total and leisure-time physical activity to coronary artery disease risk factors in medical students (Leaf et al) 1992;1:208 (Original research)
- Creatine kinase**
creatine kinase, aspartate aminotransferase, and perceived soreness following exercise-induced muscle injury (Schneider et al) 1992;1:281 (Original research)
- Diabetes**
health benefits of dietary fiber (Geil and Anderson) 1992;1:257 (State-of-the-art review)

health promotion for diseases of industrialized nations (Elrick) 1992;1:143 (Original research)

Dietary fiber

health benefits of dietary fiber (Geil and Anderson) 1992;1:257 (State-of-the-art review)

Disclosure

talking and writing as illness prevention (Francis and Pennebaker) 1992;1:27 (State-of-the-art review)

Driving. *See* Automobile driving

Echocardiography

mitral valve prolapse in the seventh to ninth decades of life (Goldhammer et al) 1992;1:343 (Original research)

Economics

health insurance: the economic case for and against fitness (Couzens) 1992;1:181 (Freelance article)

Elderly. *See* Aged

Energy

oxygen, energy, length, and quality of life in chronic obstructive pulmonary disease (Petty) 1992;1:359 (Editorial)

Exercise

adaptive responses of bone to physical activity (Conroy et al) 1992;1:64 (State-of-the-art review)

childhood health and fitness in the United States: current status and future challenges, part I (Rippe et al) 1992;1:97 (Roundtable discussion)

childhood health and fitness in the United States: current status and future challenges, part II (Rippe et al) 1992;1:171 (Roundtable discussion)

Circulatory responses to walking and jogging exercise with hand-held weights in young women (Garber et al) 1992;1:92 (Original research)

creatine kinase, aspartate aminotransferase, and perceived soreness following exercise-induced muscle injury (Schneider et al) 1992;1:281 (Original research)

exercise, nutrition, and the prevention of cardiovascular disease: a pediatric perspective (Rowland) 1992;1:34 (State-of-the-art review)

exercise and the primary prevention of coronary heart disease (McBride et al) 1992;1:5 (State-of-the-art review)

improvement in coronary risk profiles of obese adolescent males following short-term moderate caloric restriction and frequent exercise (Nichols et al) 1992;1:287 (Original research)

medical clearance and exercise prescription for asymptomatic adults (Bryan and Ward) 1992;1:111 (Clinic from University of Massachusetts)

Medicine, Exercise, Nutrition, and Health: a vision for the 90s (Rippe and Ward) 1992;1:1 (Special article)

physical activity and health: a lifestyle approach (Sagiv et al) 1992;1:54 (Editorial)

prediction of cardiorespiratory fitness using physical activity questionnaire data (Ainsworth et al) 1992;1:75 (Original research)

relation of high-density lipoprotein cholesterol to physical activity levels in men and women (Hartung et al) 1992;1:293 (Original research)

- health benefits of dietary fiber (Geil and Anderson) 1992;1:257 (State-of-the-art review)
- Medicine, Exercise, Nutrition, and Health*: a vision for the 90s (Rippe and Ward) 1992;1:1 (Special article)
- nutrition and health throughout the life cycle (Stare and McWilliams) 1992;1:16 (State-of-the-art review)

Obesity

- childhood health and fitness in the United States: current status and future challenges, part II (Rippe et al) 1992;1:171 (Roundtable discussion)
- health benefits of dietary fiber (Geil and Anderson) 1992;1:257 (State-of-the-art review)
- health promotion for diseases of industrialized nations (Elrick) 1992;1:143 (Original research)
- improvement in coronary risk profiles of obese adolescent males following short-term moderate caloric restriction and frequent exercise (Nichols et al) 1992;1:287 (Original research)
- lowering childhood risk factors: an investment in the future (Strong) 1992;1:301 (Editorial)
- weight loss perceptions, characteristics, and expectations of an overweight male and female population (Miller and Eggert) 1992;1:42 (Original research)

Obstructive pulmonary disease. *See* Lung diseases, obstructive

Osteoarthritis

- lower extremity performance characteristics of osteoarthritic women (Knutzen et al) 1992;1:153 (Original research)

Osteogenesis

- adaptive responses of bone to physical activity (Conroy et al) 1992;1:64 (State-of-the-art review)

Oxygen

- oxygen, energy, length, and quality of life in chronic obstructive pulmonary disease (Petty) 1992;1:359 (Editorial)
- when should oxygen be prescribed in patients with chronic obstructive pulmonary disease? (Tarpy and Celli) 1992;1:331 (State-of-the-art review)

Oxygen consumption

- Circulatory responses to walking and jogging exercise with hand-held weights in young women (Garber et al) 1992;1:92 (Original research)
- prediction of cardiorespiratory fitness using physical activity questionnaire data (Ainsworth et al) 1992;1:75 (Original research)
- relationships among exercise training, aerobic capacity, and psychological well-being in the general population (Brown and Wang) 1992;1:125 (State-of-the-art review)

Paraspinal muscle

- influence of pelvic stabilization/orientation and trunk rotation on paraspinal muscle activity during support of a hand-held load (Hall and Rodeen) 1992;1:83 (Original research)

Pediatrics. *See* Child; Infant**Pelvic tilt**

- influence of pelvic stabilization/orientation and trunk rotation on paraspinal muscle activity during support of a hand-held load (Hall and Rodeen) 1992;1:83 (Original research)

Physical activity. *See* Exercise**Physical fitness**

- assessment of aerobic power/endurance in children (Ebbeling and Ward) 1992;1:230 (Clinic from University of Massachusetts)
- childhood health and fitness: separating fact from fiction (Rippe and Ward) 1992;1:61 (Editorial)
- childhood health and fitness in the United States: current status and future challenges, part I (Rippe et al) 1992;1:97 (Roundtable discussion)
- childhood health and fitness in the United States: current status and future challenges, part II (Rippe et al) 1992;1:171 (Roundtable discussion)
- health insurance: the economic case for and against fitness (Couzens) 1992;1:181 (Freelance article)

Podiatry

- common running injuries seen in a podiatric sports medicine practice, part I (Blake and Ferguson) 1992;1:321 (State-of-the-art review)

Pregnancy

- nutrition and health throughout the life cycle (Stare and McWilliams) 1992;1:16 (State-of-the-art review)

Prescriptions, nondrug

medical clearance and exercise prescription for asymptomatic adults (Bryan and Ward) 1992;1:111 (Clinic from University of Massachusetts)

Psychology

relationships among exercise training, aerobic capacity, and psychological well-being in the general population (Brown and Wang) 1992;1:125 (State-of-the-art review)

Quality of life

oxygen, energy, length, and quality of life in chronic obstructive pulmonary disease (Petty) 1992;1:359 (Editorial)

Questionnaires

prediction of cardiorespiratory fitness using physical activity questionnaire data (Ainsworth et al) 1992;1:75 (Original research)

Rehabilitation

cardiac rehabilitation for children with heart disease (Galio and Tomassoni) 1992;1:272 (State-of-the-art review)

Respiratory system

cardiorespiratory responses of cardiac patients to incremental stairstepping and treadmill exercise (Quinn et al) 1992;1:217 (Original research)

prediction of cardiorespiratory fitness using physical activity questionnaire data (Ainsworth et al) 1992;1:75 (Original research)

Running

bilateral asymmetry in vertical ground reaction force data during the support phase of running (McCaw and Bates) 1992;1:352 (Original research)

biomechanics of the lower extremity during running (Hamill et al) 1992;1:245 (Annotated bibliography)

common running injuries seen in a podiatric sports medicine practice, part I (Blake and Ferguson) 1992;1:321 (State-of-the-art review)

Safety

safe driving (Drexler) 1992;1:223 (Freelance article)

Science

science and the gender gap (Douglas) 1992;1:228 (Editorial)

Sex

science and the gender gap (Douglas) 1992;1:228 (Editorial)

weight loss perceptions, characteristics, and expectations of an overweight male and female population (Miller and Eggert) 1992;1:42 (Original research)

Sports

bilateral asymmetry in vertical ground reaction force data during the support phase of running (McCaw and Bates) 1992;1:352 (Original research)

common running injuries seen in a podiatric sports medicine practice, part I (Blake and Ferguson) 1992;1:321 (State-of-the-art review)

effectiveness of the influenza vaccine in elite athletes (Drobnic et al) 1992;1:348 (Original research)

Stairstepping. *See* Exercise test

Stress

relationships among exercise training, aerobic capacity, and psychological well-being in the general population (Brown and Wang) 1992;1:125 (State-of-the-art review)

Students, medical

relationship of total and leisure-time physical activity to coronary artery disease risk factors in medical students (Leaf et al) 1992;1:208 (Original research)

Talking

talking and writing as illness prevention (Francis and Pennebaker) 1992;1:27 (State-of-the-art review)

Temperature

temperature regulation in women (Kolka) 1992;1:201 (State-of-the-art review)

Thermoregulation. *See* Body temperature regulation**Treadmill test. *See* Exercise test****Trunk rotation**

influence of pelvic stabilization/orientation and trunk rotation on paraspinal muscle activity during support of a hand-held load (Hall and Rodeen) 1992;1:83 (Original research)

United States

childhood health and fitness in the United States: current status and future challenges, part I (Rippe et al) 1992;1:97 (Roundtable discussion)

childhood health and fitness in the United States: current status and future challenges, part II (Rippe et al) 1992;1:171 (Roundtable discussion)

University of Massachusetts

assessment of aerobic power/endurance in children (Ebbeling and Ward) 1992;1:230 (Clinic from University of Massachusetts)

medical clearance and exercise prescription for asymptomatic adults (Bryan and Ward) 1992;1:111 (Clinic from University of Massachusetts)

Ventricular function, left

effect of increased afterload on left ventricular filling properties in healthy elderly and young subjects (Sagiv et al) 1992;1:48 (Original research)

Walking

Circulatory responses to walking and jogging exercise with hand-held weights in young women (Garber et al) 1992;1:92 (Original research)

kinetic and energetic analysis of unilateral above-knee amputee gait (DeVita) 1992;1:164 (Case report)

Weight-bearing

Circulatory responses to walking and jogging exercise with hand-held weights in young women (Garber et al) 1992;1:92 (Original research)

influence of pelvic stabilization/orientation and trunk rotation on paraspinal muscle activity during support of a hand-held load (Hall and Rodeen) 1992;1:83 (Original research)

Weight loss

weight loss perceptions, characteristics, and expectations of an overweight male and female population (Miller and Eggert) 1992;1:42 (Original research)

Women

- Circulatory responses to walking and jogging exercise with hand-held weights in young women (Garber et al) 1992;1:92 (Original research)
- coronary heart disease in women: medical science coming of age (Becker and Corrao) 1992;1:191 (State-of-the-art review)
- lower extremity performance characteristics of osteoarthritic women (Knutzen et al) 1992;1:153 (Original research)
- relation of high-density lipoprotein cholesterol to physical activity levels in men and women (Hartung et al) 1992;1:293 (Original research)

science and the gender gap (Douglas) 1992;1:228 (Editorial)

temperature regulation in women (Kolka) 1992;1:201 (State-of-the-art review)

weight loss perceptions, characteristics, and expectations of an overweight male and female population (Miller and Eggert) 1992;1:42 (Original research)

Wounds and injuries

common running injuries seen in a podiatric sports medicine practice, part I (Blake and Ferguson) 1992;1:321 (State-of-the-art review)

Writing

talking and writing as illness prevention (Francis and Pennebaker) 1992;1:27 (State-of-the-art review)
